

The HEART Hand Model for Life™

KNOW THY SELF AND Those in Your Life

In our premiere issue we introduced our HEART Hand Model for Life™ – a tool to help you identify your core essence and achieve a soulful life through greater self-awareness. HEART's second issue revisited the Hand Model to allow you to reflect, reevaluate, and refine your Hand.

Now, dig deeper to better understand how other people may be influencing your responses and ultimately, your life. Take stock of your relationships, both personal and professional. Who encourages your goals and supports

your efforts? Who puts you down or disregards your contributions? Garner insight into those who influence your personal success.

Learning to foster the relationships that lift you and to let go of the ones that bring you down is an important step on the road to self-discovery and fulfillment. By consciously identifying those individuals and creating an action plan, you can begin to spend more time with the ones who matter most in your life and eliminate the counter-productive relationships.

The HEART Hand Model for Life™ is the foundation of our mentorship exercise series. We have included it again for those who may not have had the opportunity to work through it. For those who have completed it, take a moment to revisit your Hand. Would you make any changes or additions to it, or would you articulate your Hand differently, now that you have had some time for reflection?

WHO IS SUPPORTING YOUR DREAMS? WHO IS BLOCKING YOUR ENERGY?

Using the completed Hand Model (page 62) as your foundation, use the Hand Models below to map out and recognize both constructive and destructive relationships. Be prepared to articulate your action steps to ensure you eliminate the counter-productive relations, while finding more time to spend with those who foster and support your goals.

MENTORSHIP

Now that you have identified the individuals in your life who you feel contribute to your dreams and those who you feel undermine your efforts to achieve your goals, take time to create action steps to increase your involvement with the positive influencers and reduce or eliminate your interaction with negative influencers.

1. To help me achieve my dreams I need to spend more time with _____
and less time with _____ .

2. I will do this by establishing (weekly or monthly) _____ meetings with
_____ .

3. I will say NO to _____ the next time they ask for my assistance
or involvement.

4. I will spend less time with (if possible, completely eliminate) _____
as I always feel drained and compromised when we complete our visit.

5. I will do the following positive/healthy activities this month, to help bring me closer to achieving my goals. They are:
_____, _____, _____, and _____ .

6. I will commit to this action plan to detox my life and cultivate healthy supportive relationships so that I remain focused
and motivated to achieve my goals.

**Remember, what you can control, regardless of who is interacting with you, are your reactions and your attitude.
Sometimes the best solution is to walk away, gain perspective, and completely disconnect yourself from the situation.
Try meditation focused on "composure", "peace", and "strength".**
